**We're looking for both sponsors and golfers for this special outing** to help raise funds so we may continue to provide innovative classroom grants that enhance the educational experience at North Penn. Plus:

- ❖ **Golfers** enjoy a fun day on the course with great food and drinks, while supporting the quality education for which NPSD is known, for just \$160 per golfer. And, you have the opportunity to make valuable business contacts.
- ❖ **Sponsors** have the opportunity to gain visibility among this select audience in a variety of different ways. Not to mention, you also help students gain valuable opportunities like no other.

**Check the latest opportunity the Foundation is providing thanks to the generosity of others...**

North Penn High School will be the **FIRST** high school in North America to provide students a new Spatial Computing Program that provides students with the unique opportunity to learn how to design, develop, and publish Augmented Reality (AR) and Virtual Reality (VR) applications. The emerging technology areas of AR and VR have seen widespread adoption and explosive growth across almost every industry.

Since 1988, NPSD educators have been applying for grants that support and complement their subject area's curriculum and create innovative student engagement which leads to improved learning and comprehension. The Foundation, a 501c (3) corporation, has provided over \$1 million in funding for these programs through the collaboration among individuals committed to enriching the education and lives of more than 13,000 students.

Consider joining us on the course or as a sponsor and make a difference in your own backyard! **Register online at [www.npennedfoundation.org](http://www.npennedfoundation.org) or complete a registration form by September 17, 2021.** Hurry, space fills quickly!

Sincerely,

*Christine Liberaski*
